

Agility,  
Resilience and  
Transformation  
in Curriculum Design

The DECART curriculum canvas, as a tool,  
permits higher education stakeholders to:

- share and confront ideas in curriculum design in a synthetic manner abstracting their details
- increase the quality and relevance of curriculum design activities
- foster collaboration & enhance capacity to operate jointly between programs
- boost interoperation of curriculums

With this curriculum canvas, you can:

- shape the broadlines of a new curriculum to design
- describe an existing or under development curriculum
- stimulate changes with cards and discuss component links
- confront a curriculum to an operational context
- pressure a curriculum with disruption & crisis cards

Once a curriculum designed in the canvas, curriculum resilience analysis & transformation are available via other DECART tools.
